DISCOVER WHAT MAKES GERJA RIKU EXCEPTIONAL

The GerJa Riku Truck 2026 is powered by a high-performance Japanese ISUZU engine (2771cc), engineered for durability and reliable commercial operation.

Definition

- High-Performance ISUZU Japanese Engine – Reliable power and efficiency you can count on.

Features & Advantages

- 1900 mm Cabin with AC – Spacious and comfortable for long drives.

Comfort

- A/C and Power Windows – Smooth, convenient, and climate-controlled driving experience.

Emission

- Available in Euro 3, 4 & 5 – Meets international emission standards for a cleaner environment.

EXTERIOR FEATURES – GERJA RIKU 2026

- Modern Aerodynamic Design: Sharp, clean lines reduce air resistance and give the truck a contemporary look.
- Wide Front Windshield & Large Mirrors: Provide excellent visibility for safer driving and easier maneuvering.
- LED Headlights & Daytime Running Lights: Bright illumination ensures safety during the day and at night.
- Sturdy Cargo Bed with Side Panels: Durable flatbed suitable for various loads, designed for easy loading and unloading.
- Side Step & Grab Handles: Convenient access to the cabin, enhancing driver comfort.
- Protective Side Guards & Reflective Strips: Increase safety and visibility on the road.
- Steel Wheels with Robust Tires: Built for heavy-duty use and stability under load.

COMFORT & INTERIOR – GERJA RIKU TRUCK

Engine & Performance:

- Powered by strong WEICHAH and ISUZU engines for reliable and high-performance driving.
- 2026 Isuzu Engine, 2771cc, delivers ample power for heavy loads with efficient fuel consumption.

Cargo Space & Versatility:

- Best-in-class cargo box size, offering flexible options for various customer needs.

Interior & Features:

- Luxurious cockpit equipped with a 9-inch multifunctional touchscreen.
- Smooth touchscreen supports music, rearview camera, and more.

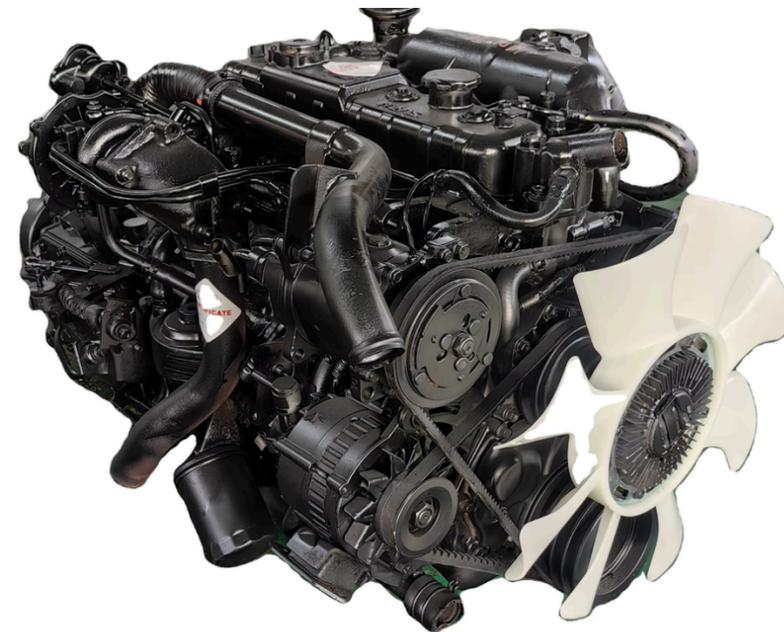

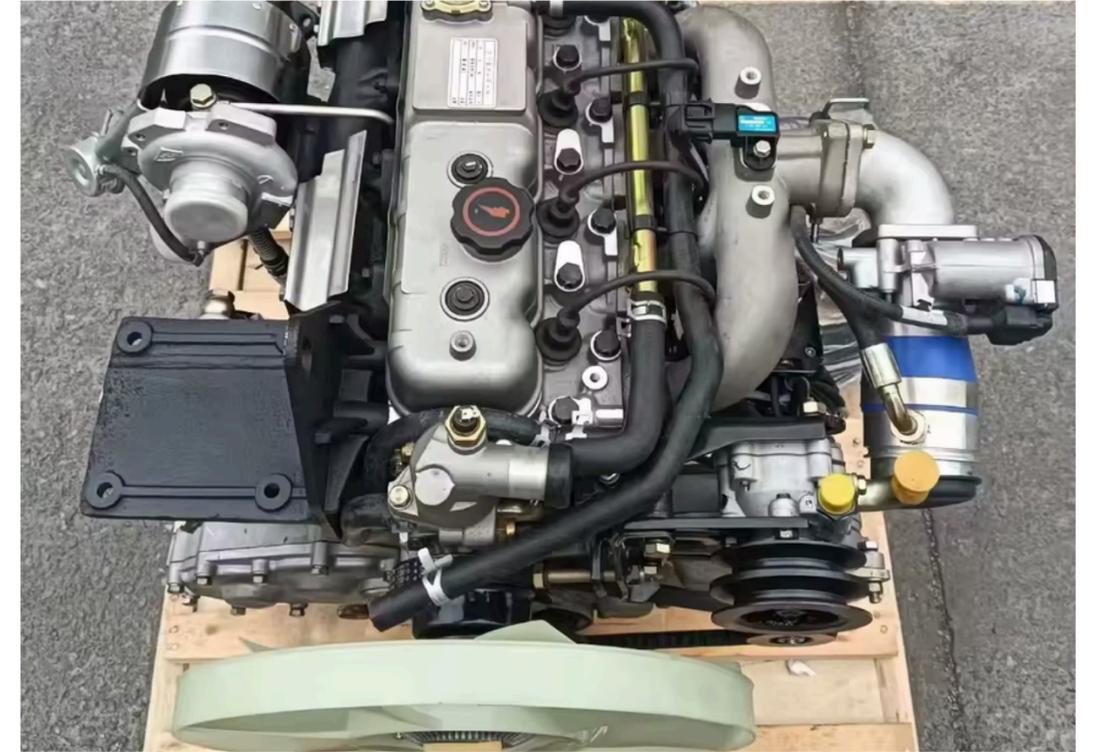

Chassis & Stability:

- Specialised chassis alignment ensures strong load-bearing capacity and excellent stability on the road.

ISUZU ENGINE, 2771CC

Powerful Isuzu Engine - 2771cc

- Experience robust performance and unmatched reliability with the high-efficiency 2771cc Isuzu engine, designed for heavy-duty tasks and smooth, long-distance driving. Engineered in Japan, it delivers both power and fuel efficiency for all your work needs.

SAFETY AND DRIVING ASSISTANCE

- Blind Spot Monitoring (BSM) – Alerts the driver when vehicles are detected in the blind spots for safer lane changes.
- Lane Departure Warning – Warns the driver if the vehicle unintentionally drifts out of its lane.
- Automatic Emergency Braking (AEB) – Helps prevent or reduce the severity of collisions by automatically applying the brakes when a potential crash is detected.
- Smart Cruise Control – Maintains a safe distance from the vehicle ahead while driving, adjusting speed automatically.
